

PRIYANKA JAIN

Lead Product Owner | AI & Web3 Products | Product Strategy & Agile Delivery | CSPO

Gurugram, Haryana · +91 7417227754 · jainprank@gmail.com · linkedin.com/in/jainprank

PROFESSIONAL SUMMARY

Product leader with 9+ years across the full product lifecycle: business analysis, Agile delivery, functional leadership and product ownership. Currently Lead Product Owner for a 3-product enterprise suite on Hedera (carbon markets, supply-chain traceability, GenAI), leading a team of product owners. Led Flowgenix-AI, a multi-agent GenAI system that cut carbon-methodology onboarding from 4–5 months to 1–2 days. Delivery depth from 8+ years at Accenture across 12+ clients including Microsoft, Petronas, Google, Walmart and NTT DOCOMO; has led Agile teams of up to 40. Brings product judgment grounded in delivery cost, and an AI-first way of working from discovery to release.

CORE COMPETENCIES

- **Product Strategy:** roadmap ownership, portfolio prioritization, product discovery, competitive & market analysis, go-to-market planning
- **AI Product Development:** generative AI, multi-agent / agentic systems, LLM applications, human-in-the-loop design, GenAI-accelerated specs and delivery
- **Agile Product Ownership:** backlog ownership, user stories & acceptance criteria, sprint/release planning, Scrum, Kanban, Scaled Agile
- **Delivery & Program Management:** delivery governance, estimation, risk & issue management, capacity planning, RFP & solutioning
- **Domains:** carbon markets & dMRV, ESG, digital identity, supply-chain traceability, blockchain/DLT (Hedera, R3 Corda, Ethereum, Hyperledger)

PROFESSIONAL EXPERIENCE

The Hashgraph Group | Lead Product Owner

Dec 2025 – Present

Gurugram, India (Swiss-headquartered)

- Own product strategy, roadmap and cross-portfolio prioritization (investment, resourcing, releases) for the Hashgraph for Enterprise (H4E) suite: EcoGuard (carbon markets), TrackTrace (supply-chain traceability) and Flowgenix-AI (GenAI methodology digitization).
- Led Flowgenix-AI, a multi-agent GenAI pipeline (orchestrator, document parser and specialist generators for BPMN, forms, validation rules, DMN and calculation logic, with human-in-the-loop checkpoints) that cut SME carbon-methodology processing from **4–5 months to 1–2 days (~98% faster)**.
- Took EcoGuard live with clients across India, the Philippines and Latin America, including MPBCDC (Government of Maharashtra), PI Green, CONFED (signed at WEF Davos) and ENVEX.
- Built IDTrust, a decentralized identity product, using Claude to accelerate requirements, specs, user stories and delivery.
- Lead and mentor a team of product owners; align engineering, design and executive stakeholders on prioritized delivery plans and acceptance criteria.

Accenture Technology | Gurugram, India

Jul 2017 – Dec 2025

Associate Manager, Business & Integration

Dec 2024 – Dec 2025

Role: Product Manager

- Owned delivery and functional requirements for NTT DOCOMO's Universal Wallet Infrastructure, a tokenized digital-identity platform for issuing and verifying credentials and tokens across enterprises and governments.
- Planned scope, schedule and priorities each sprint; turned engineering, UX, QA and client input into delivery plans, user stories and acceptance criteria.
- Introduced GenAI tooling (Accenture myWizard) to auto-generate user stories and test cases, and used GenAI dashboard analytics to flag delivery risks and capacity gaps.

Business & Technology Lead Consultant

Nov 2021 – Dec 2024

Roles: Scrum Master → Functional Lead → Product Manager

- Led delivery across 12+ clients, including Microsoft's Azure Supply Chain blockchain, one of the first production-grade track-and-trace DLTs, which **cut supply-chain costs by \$50M** (Gartner Power of the Profession Award).
- Directed Agile teams of 30+ members through sprint cycles, capacity planning and client demos; sequenced concurrent programs by urgency, resources and strategy.
- Designed scalable delivery models (data-flow diagrams, process maps, mockups) that reduced downstream rework; drove RFP responses and client pitches with solution estimates.

- Set up a Value Realization Office for Accenture's blockchain capability; from Nov 2023, led the NTT DOCOMO Universal Wallet program as Product Manager.

Blockchain Business & Technology Senior Analyst

Dec 2020 – Nov 2021

Role: Scrum Master

- Facilitated the full Scrum framework (planning, backlog grooming, daily scrums, reviews, retrospectives) for 40+ distributed team members across multiple blockchain programs.
- Partnered with product owners to prioritize the backlog by business value; removed impediments, coached teams on Agile practice and managed delivery risk through mitigation planning.

Blockchain Business & Technology Analyst

Jul 2017 – Dec 2020

Roles: Business Analyst → Scrum Master

- Delivered blockchain solutioning for Petronas, Google, Kuehne+Nagel, AB InBev, Walmart, NTT and GJEPC on Ethereum, R3 Corda and Hyperledger.
- Facilitated 20+ Design Thinking workshops and AI/technology readiness assessments to identify and prioritize use cases, requirements and roadmaps; performed current- vs target-state gap analysis.
- Designed and deployed custom blockchain proofs of concept for clients in India and globally; built a reusable blockchain accelerator library that sped up delivery across engagements.

CERTIFICATIONS & AWARDS

- Certified Scrum Product Owner (CSPO), Scrum Alliance · AWS Certified Cloud Practitioner · Corda Developer Certificate (R3) · LFC131 Green Software for Practitioners (Linux Foundation)
- Gartner Power of the Profession Award (Microsoft Azure Supply Chain) · Accenture ACE Awards (Shipping & 5G) · People's Choice Award for Innovation · Co-Innovation & Client Innovation Awards (Petronas) · Global Innovation Contest, 2nd place

EDUCATION

M.Tech, Chemical Engineering | Indian Institute of Technology (IIT) Roorkee

2015 – 2017

CGPA 8.9 · Publications in Bioresource Technology

B.Tech, Chemical Engineering | SDM College of Engineering & Technology (SDMCET)

2010 – 2014

CGPA 9.1

TOOLS

Jira, Confluence, Azure DevOps, Miro, Lucidchart, Trello, Microsoft Office · AI: Claude, Cursor, Copilot, Atlassian Intelligence
