PROFESSIONAL EXPERIENCE

Lead Product Manager — The Hashgraph Group, Gurugram **Dec 2025 – Present**

- **Portfolio ownership:** Own strategy and end-to-end delivery for 7+ enterprise Web3/DLT products across digital identity, tokenisation, carbon markets, payments and traceability; lead 5 product owners from discovery through UAT, launch and hypercare.
- **Flowgenix-AI:** Cut carbon-reporting onboarding from 4–5 months to 1–2 days (~98% faster).
- **EcoGuard:** Drive an enterprise carbon marketplace on Hedera DLT and smart contracts covering the full carbon-credit lifecycle.
- **Digital trust:** Drive enterprise integrations using DIDs, Verifiable Credentials, ERC-1155, HCS and smart contracts.

Accenture Technology — Gurugram & Bengaluru, India **Jul 2017 – Dec 2025**

Business Analyst → Scrum Master → Project Manager → Product Owner, Blockchain & Emerging Tech; 12+ clients, 11 blockchain implementations

Product Owner / Functional Lead — Immersive Technology *Nov 2024 – Dec 2025*

- **Universal Wallet Infrastructure (NTT DOCOMO):** Owned the product backlog as Product Owner for UWI, an Ethereum-based digital-trust platform co-developed by Accenture and NTT DOCOMO GLOBAL that lets enterprises issue, verify and manage credentials and tokens across digital identity, money, assets and documents; defined user stories and acceptance criteria with engineering and stakeholders ahead of its January 2026 public launch.
- **GenAI use cases:** Defined GenAI use cases for automation, quality and knowledge management on myWizard; led a use case that auto-generates user stories and test cases from requirements.
- **Automated reporting:** Cut client manual tracking effort by 35% with automated reporting workflows.
- **Prioritization & adoption:** Prioritized backlogs by business value (+15% throughput); led GenAI training and change management across Agile teams.
- **Metaverse GTM:** Spearheaded industry-specific GTM content for NVIDIA-powered Metaverse capabilities, translating emerging technologies into enterprise-ready value propositions.
- **Industry narratives:** Developed vertical-specific solution narratives and client presentations showcasing digital twins, 3D simulation and immersive technologies across multiple industries.
- **Solutioning enablement:** Enabled enterprise solutioning and business development with tailored GTM collateral articulating technology differentiation, industry use cases and business transformation opportunities.

Project Manager — Blockchain Programs *Oct 2022 – Oct 2024*

- **Microsoft Azure Supply Chain:** Led end-to-end delivery of one of the largest production-grade blockchain implementations, helping cut supply-chain costs by $50M.
- **Team & portfolio:** Managed 30+ member cross-functional Agile teams across concurrent programs for 12+ clients, owning sprints, capacity and client demos.
- **Delivery models:** Designed delivery models with data flows, process maps and mockups, cutting rework 35% and raising blockchain project ROI 10%; built a Value Realization Office framework.
- **Predictability:** Planned 20+ sprints at 95% on-time delivery; shipped a multi-tier platform integration 2 weeks early with zero critical defects.

- **Pre-sales:** Supported RFP responses and client visits with solution pitches and estimates, enabling account expansion.

Agile Scrum Master *Nov 2019 – Sep 2022*

- **Scrum at scale:** Ran sprint planning, grooming, stand-ups, reviews and retrospectives for 40+ global team members across multiple projects, including shipping and 5G programs.
- **Flow & risk:** Improved delivery timelines through backlog discipline and capacity planning; removed impediments and kept mitigation plans ahead of risks.
- **Blockchain delivery:** Supported delivery across Ethereum, R3 Corda and Hyperledger for the practice's blockchain clients.

Business Analyst — Blockchain Solutioning *Jul 2017 – Oct 2019*

- **Client solutioning:** Shaped solutions for Microsoft, Petronas, Google, Kuehne+Nagel, AB InBev, Walmart and GJEPC across supply chain, oil & gas, logistics and retail.
- **Workshops:** Ran 20+ Design Thinking workshops and 30+ ideation and tech-readiness assessments to prioritize use cases and build roadmaps.
- **PoCs & accelerators:** Built 10+ blockchain proofs of concept and an accelerator library, speeding delivery 20%.
- **Analysis:** Performed gap analysis and wrote requirement and training documentation for new systems.

AI PRODUCT BUILDING

Built on my own time with Claude Code, Codex, Supabase, Firebase, Vapi and ElevenLabs (priyankajain.vercel.app): **Portfolio Digital Twin** (agentic recruiter chatbot), **RoleCraft** (JD-tailored portfolio and pitch), **StorySprout AI** (personalized children's audio stories), **SoundSteps** (phonics learning), **TrackTrace for Chocolate** (farm-to-shelf traceability MVP).
